

PRODUCT INFORMATION

PRODUCT: DUCT TAPE

PART NO.: 6900

FUNCTION AND APPLICATION: Used as a general-purpose tape in construction, automotive, manufacturing plants, workshops and the home. May be used to hold protective covers over machinery, parts and other supplies. Use for sealing open pipe ends to prevent debris from entering. Thousands of other uses.

OUTSTANDING PROPERTIES: Aluminum cloth is far superior to plastic backed tapes. The strength of Tite Seal duct tape coupled with its straight tear and lack of curl makes it an easy tape to work with for the construction tradesman, the manufacturing professional, the handyman, the automobile mechanic and the home owner. Tite Seal duct tape adheres to many surfaces and is highly conformable. It has a tensile strength of 20lbs per inch of width and a maximum performance temperature of 0°C to 65°C.

DISPOSAL: Safeguard our environment. Dispose of container, residue and excess product in accordance with all federal, provincial and local laws and regulations.

PACKAGING: 1524cm. (10 yards) roll

U.P.C. CODE: 0-77922-76650-5

WEIGHT PER CASE: .7 kg 1.5 lbs

CASE SIZE: N/A
