

PRODUCT INFORMATION

PRODUCT: **GUNK TUFF LAN-LIN HAND CLEANER**

PART NO.: **M1010**

FUNCTION AND APPLICATION: Use for cleaning lacquers, resins, epoxies and adhesives from hands.

OUTSTANDING PROPERTIES: This pleasant smelling hand cleaner has plastic scrubbers to aid in removing dried on lacquers, and resins from hands. The waterless formula means there is no need to rinse off with water. Just wipe hands dry with a cloth or paper towel. Your hands will be totally grease-free with no after film. Very strong in removing resins, yet it will not irritate the skin. This product contains many skin conditioners and moisturizers to protect your hands. **GUNK TUFF** contains only environmentally friendly, biodegradable surfactants. It is also designed to fight germs and bacteria that have come into contact with your hands.

USE DIRECTIONS: Squeeze **GUNK TUFF** into the palm of your hands. Rub well into skin until all the resin has been loosened. Wipe with a cloth or towel. No need to use water.

LIMITATIONS: Use as directed.

PRECAUTIONS: M1010 contains no hazardous ingredients.

DISPOSAL: Safeguard our environment. Dispose of container, residue and excess product in accordance with all federal, provincial and local laws and regulations.
