

PRODUCT INFORMATION

PRODUCT: DIESEL FUEL CONDITIONER AND INJECTOR CLEANER FOR LOW-SULPHUR DIESEL FUELS

PART NO.: M7132C

FUNCTION AND APPLICATION: For use in low sulphur diesel fuels. Diesel fuel conditioner and injector cleaner contains lubricant and seal conditioning agents which are designed to minimize effects on pumps and seals due to low sulfur diesel fuels. Additive package cleans injectors and fuel systems. This product improves the performance characteristics of diesel fuels under normal weather conditions. Improves: engine performance, injector function, water dispersion, Cetane number (cold starting characteristics), metal to metal contact lubrication, particulate emissions, fuel economy and stability.

OUTSTANDING PROPERTIES: Disperses contaminants found in diesel fuel that results in improved engine performance. Cleans deposits that adversely alter the spray characteristics in fuel injectors. Helps improve fuel economy to increase operating profits, inhibits metals in system from corrosion, helps prolong the life of the fuel system and engine components. Stabilizes fuel. Prevents oxidation and corrosion, and deactivates metals. Removes carbon, gums and varnish deposits. This product contains no alcohol.

USE DIRECTIONS: Add one container per 475 litres of fuel.

PRODUCT LIMITATIONS: This product will not ungel fuel.

PRECAUTIONS: View MSDS at www.gunk.ca.

STORAGE & HANDLING: Store in a cool place below 50°C away from acids, ignition sources and oxidizing agents. Avoid breathing of vapors. Wearing contact lenses while working with this product is inadvisable. Keep away from children and animals.

DISPOSAL: Safeguard our environment. Dispose of container, residue, and excess product in accordance with all federal, provincial and local laws and regulations.

PACKAGING: M7132C - 946ml plastic bottle w/cr. cap, 12 per case.

U.P.C. CODE: M7132 C- 0-60959-02583-7

WEIGHT PER CASE: M7132C - 23 lbs. 10.45 kg

CASE SIZE: M7132C - 13 x 12 x 9
